

THE COAST.

Ray Falk Dismissed as Assembly Clerk.

SANTA BARBARA LOOMING UP.

Dr. Hodges, the Grand Opera House Bomb-Thrower, Held to Trial.

Associated Press Dispatches to the HERALD. Special Dispatch to the HERALD.

SACRAMENTO, March 2.—The following report was made to-night by the Smith-Ray Falk Investigating Committee: "There is no evidence before the committee to show that any member of the Assembly has been guilty of attempting improperly to have the position of any bill changed on the floor. All the members of the Assembly are excused from any such attempt. The committee are satisfied from the evidence that attempts have been made to tamper with the files, but are not able to show who the guilty parties are. They are satisfied from the evidence that Ray Falk willfully and wrongfully attempted to change Bill 179 on the floor on the 8th day of February, by the testimony of Ray Falk himself. We think that all the clerks should be excused from any charge or suspicion, except Ray Falk. We think Mr. Allen Henry should be excused from any charge of improper conduct with regard to Assembly Bill No. 16. We believe that L. E. Buckley attempted to influence Clerk Smith to advance improperly Bill 295 on the floor. The committee further find from the evidence that Senator McCall attempted to influence Smith to displace Assembly Bill 16 from its proper place on the floor, but that such change was not made. "Resolved, That Ray Falk be and is hereby dismissed from his position as Clerk of the Assembly."

(Signed) "L. H. EWING, "J. D. ELLSWORTH, "W. D. MORRIS, "JOHN DAVIS, Committee."

SANTA BARBARA'S RESOURCES.

Preparing to Exhibit Her Resources in Los Angeles.

SANTA BARBARA, March 2.—The Board of Trade of this city are preparing to advertise the resources of this county in good style. A large collection of the products of the county, such as cereals, citrus fruits and dried fruits is being prepared for shipment to Los Angeles, where they will be kept on exhibition for the purpose of enlightening our visitors in regard to our resources.

The Bomb-Thrower Held for Trial.

SAN FRANCISCO, March 2.—At the preliminary examination to-day of Dr. James Hodges, charged with having exploded a bomb in the Grand Opera House, during the Patti concert, on February 9th, the Judge held the accused in \$10,000 for trial.

DELINQUENT TAXES.

Suit Commenced Against the California Railroads.

SAN FRANCISCO, March 2.—The State Controller, under the name of the people of the State of California, has brought suit against the various railroad corporations in this State for the delinquent taxes of 1886, as follows: Southern Pacific Company, for \$1,200; Santa Fe, \$1,200; county taxes, \$150,768. Central Pacific Company, State taxes \$112,000; county taxes, \$203,099. California Pacific, State taxes, \$11,200; county taxes, \$17,785. San Pablo and Tulare Railroad Company, State taxes, \$5040; county taxes, \$6146. Northern Pacific Company, State taxes, \$15,120; county taxes, \$22,282. The plaintiff also asks that 5 per cent. be added as a penalty for the delinquency.

Death of the Chief Justice.

SAN FRANCISCO, March 2.—Chief Justice Morrison, of the State Supreme Court, died this morning. The cause of his death was a stroke of paralysis which occurred several years ago. He was taken ill again on February 23d last, and had not been able to leave his room since. The deceased was 60 years old and leaves a family. The Supreme Court and civil departments of the Superior Courts adjourned to-day in respect to the memory of the late Chief Justice.

The Weather.

SAN FRANCISCO, March 2.—Indications for the twenty-four hours commencing at 4 A. M. March 3d, for California: Light local showers. Fourteen hundredths of an inch of rain fell during the past twenty-four hours. It is now cloudy, with indications of more rain.

SAN FRANCISCO, March 2.—Rain fell to-day at Merced, Marysville, Lodi, Santa Barbara, Anderson, Chico and Suisun.

A heavy rain commenced falling at 11:40 this evening.

Star Service Changes.

WASHINGTON, March 2.—Star service changes are ordered as follows: Soleaded to San Luis Obispo, from March 14, 1887, the route is made to omit Soledad and to embrace and begin at King's City (a new office), reducing the distance twenty-one miles. The service between Pleyto and Templeton will be omitted, but is increased so as to supply San Miguel and Paso Robles, reducing the distance thirty-five miles.

Two Miners Killed.

WINNEMUECA, Nev., March 2.—A special to the Silver State from Queen City says that Dan Diamond and Dan Sullivan, two miners, were instantly killed yesterday in the Paradise Valley mine by the premature explosion of a blast. This was the first fatal accident in the mine.

For San Luis Obispo.

WASHINGTON, March 2.—The River and Harbor Appropriation bill, as agreed on by the Conference Committee, retains \$25,000 for the improvement of San Luis Obispo harbor.

Polygamists Disfranchised.

CARSON, Nev., March 2.—The amendment to the Constitution disfranchising Polygamists in Nevada was passed to-day in the Legislature.

THE LEGISLATURE.

THE SENATE.

SACRAMENTO, March 2.—The Walrath Dam bill has passed the Senate by 24 to 16.

The Assembly bill giving an additional Judge for San Bernardino county, was passed.

White introduced a resolution that when the Senate adjourned, it do so in respect to the memory of the late Chief Justice Morrison.

The Senate bill to provide for the connecting of the eastern boundary of California was passed.

The consideration of the reports in the Ryland-Conklin contest was made the order for 7:30 P. M. to-morrow.

THE ASSEMBLY.

The Boiler Inspector bill, which had been passed by the Senate, was killed. It was refused a first reading.

The Senate bill to prevent the sophistication and adulteration of wines was passed.

A resolution was adopted to-day that the House when it adjourns to-day do so out of respect to the memory of Chief Justice Morrison.

The Judiciary Committee was directed to prepare resolutions of respect to Judge Morrison's memory.

The report of the Ray Falk Investigating Committee was made the special order for to-morrow afternoon at 2:30.

Smallpox in the U. S. Cavalry.

BESSON, A. T., March 2.—It is stated on good authority that the smallpox has broken out among the soldiers of the Tenth Cavalry who are stationed under command of Lieutenant Johnson, at Mesal Springs in the Whetstone mountains, where a quarantine is in existence against them. They caught the disease from Mexicans in Cochise county, where they recently arrived.

STRIKING BRAKEMEN.

They Allege Want of Faith as the Cause of the Trouble.

YOUNGSTOWN, March 2.—All freight brakemen on the New York, Pennsylvania and Ohio Railroad, of yard and road crews, struck this morning, and freight traffic on the line is nearly suspended. The employees had a meeting last evening and were informed that Superintendent O'Brien had given instructions to enforce the order taking the third brakemen off each crew, and acting on this information, the men decided to quit work. They assert that when the strike was settled last fall it was agreed that each train should have three brakemen.

No Provision for Foreign Indians.

WASHINGTON, March 2.—In the case of the British Indians wishing to emigrate into Alaska, the Attorney-General decides that the immigration of peaceful Indians who have dissolved tribal relations and is not prohibited by the statute and is not inconsistent with the general policy of the Government, but there is no provision of law assuring to such foreign Indians any legal rights to acquire lands, neither can the President set aside reservations for their occupancy.

An Unsuccessful Scheme.

WASHINGTON, March 2.—The scheme of the Commissioner of the General Land Office to consolidate the office of Surveyors-General has failed, and will be the control of all public surveys from the Land Office here. It was proposed to consolidate the offices of the Surveyors-General of California and Nevada and abolish them in 1888. This provision was inserted in the legislative appropriations, but it was struck out of the bill in the House yesterday.

California Horses Withdrawn.

NEW YORK, March 2.—The Pacific Coast having been heard from it may be assumed that there will be no more declarations out of the Suburban to announce. E. J. Baldwin has withdrawn two good candidates. Volante and Mollie McCarthy's last, and J. B. Haggins has taken out Precious. These three animals have also been declared out of the Bay Ridge handicap in which Volante was assigned a top weight of 126 pounds.

NEW JERSEY.

Election of a Democratic Senator by the Legislature.

TRENTON, N. J., March 2.—Rufus Blodgett, Democrat, was elected United States Senator this afternoon. He is the Superintendent of the New York and Long Branch railroad.

Bills Approved.

WASHINGTON, March 2.—The President to-day approved the Military Academy Appropriation bill, the regular Pension Appropriation bill, the act to organize a Hospital Corps of the United States, and the act in regard to the importation of mackerel during the spawning season.

A Seducer Punished.

CLEVELAND, O., March 2.—At Akron, Ohio, to-day, Henry Heppert, the son of a wealthy business man, was sentenced to one year's imprisonment in the penitentiary at hard labor for the betrayal, under the promise of marriage, of a school girl of 14 years.

The Chinese Restriction Act.

WASHINGTON, March 2.—The Treasury Department has decided that the wife of a Chinese laborer is a person whose original entry into this country is prohibited by the Chinese Restriction act.

Confirmed.

WASHINGTON, March 2.—Public Printer Benedict has been confirmed by the Senate. G. L. Hanna, Postmaster of Oakland, has also been confirmed.

The British Threatened in Mozambique.

LONDON, March 2.—Advices from Zanzibar say: "The natives of the Province of Mozambique, taking advantage of the absence of the Portuguese squadron and troops at Tungi, have risen and devastated the trading stations and destroyed many British houses. The town of Mozambique is now threatened. The British Consul has telegraphed for a man-of-war to protect the lives and property of British subjects."

Prussian Spies in France.

PARIS, March 2.—General Boulanger has decided that in future no officer in his service any foreigner of either sex. This decree is caused by the fact that the government of Governor Davoust's children has been discovered to be the wife of a Prussian officer quartered at Neuf-Brisach.

EASTERN.

A Cotton Steamer Burned in Mobile Bay.

EARTHQUAKE AT LONG ISLAND.

The Naval Appropriation Bill Discussed in the United States Senate.

Associated Press Dispatches to the HERALD.

MOBILE, Ala., March 2.—The steamer Gardiner is coming in slowly ashore. No news was received till this afternoon of the fire, which was discovered by Captain Stone. The clothes of a negro deck-hand, while he was throwing water on a burning bale, caught fire. Panic-stricken he ran from place to place, setting fire to the cotton bales, and in a few moments the boat was in flames all over. She was in mid-stream and in motion. The pilots were driven from the wheel and the crew and passengers jumped overboard. Those lost were drowned. It is not thought that more than one or two were burned.

Captain Stone saved himself by swimming ashore. The steamer Tally was behind the Gardiner waiting to pass. As soon as the flames broke out the Tally lowered her boats and they threw overboard of seed sacks and planks to help the people who were jumping from the Gardiner. The heat was so intense that the Tally did not dare to go close to the boat, but her boats picked up a number of people. Had it not been for the presence of the Tally but few would have been saved.

When the fire broke out the Gardiner was ordered to run ashore. She backed and the bells were rung for going ahead, but the engines were not started. The flames broke out the Tally lowered her boats and they threw overboard of seed sacks and planks to help the people who were jumping from the Gardiner. The heat was so intense that the Tally did not dare to go close to the boat, but her boats picked up a number of people. Had it not been for the presence of the Tally but few would have been saved.

tion of the Naval Appropriation bill was resumed, the question being on Plunkett's amendment to strike out the item of \$6,000,000 for heavily armored vessels to be used for coast and harbor defenses. The amendment was rejected without a division. The amendment recommended by the committee was adopted without a division. It strikes out the House provision for two and four gunboats, all to cost, exclusive of armament, not more than \$4,950,000, and inserts in lieu thereof a section providing for the construction by contract of six protected steel cruisers with suitable armament and a speed of not less than twenty knots, the cost of all not to exceed \$9,000,000.

Additional appropriations are made for machinery and armament. One of the vessels is to be built on the Pacific coast and two on or near the coast of the Gulf of Mexico. For every quarter knot of speed over twenty knots the contractor is to receive \$50,000 and for every quarter knot under twenty knots \$30,000 will be deducted from the contract price. Further appropriations are made as follows: For the construction of heavily armored vessels or armored floating batteries or rams, to be used for coast and harbor defenses, \$9,000,000; for the construction of light-draught gunboats, available for interior waters and canal service, \$730,000; for the construction of torpedo boats, the highest attainable speed and efficiency, \$600,000; for torpedoes and other explosives and torpedo appliances, to be operated from valvular vessels, \$200,000; for the purchase of the purchase of a screw steam vessel of iron, designed and built by Captain John Ericsson, \$112,000. Mr. Aldrich offered an amendment appropriating \$250,000 for the purchase of the Siletto, to be used as a torpedo boat for experimental purposes. Agreed to. The bill and amendments were then reported to the Senate, the former proceedings being supposed to have been in the House of Representatives. Edmunds called for the yeas and nays on the amendment by making the last paragraph read: "That the material used in all naval structures provided for in this act, and the amendments to the same shall be, so far as practicable, of American production, and shall be furnished and manufactured in the United States." Agreed to.

THE HOUSE.

The House resumed the consideration of the conference report on the Fisheries Retaliation bill to-day, and after some discussion agreed, yeas 149, nays 134, to recede from the amendments to the Senate ratification bill.

A motion was laid upon the table to reconsider the vote. This passes the bill in the shape in which it passed the Senate.

The Diplomatic and Consular Appropriation bill has been agreed on in conference.

On motion of Crisp, of Georgia, the rules were suspended and the Senate amendments to the House joint resolution for the investigation of the accounts of the Pacific railroads were non-concurred in.

On motion of Voorhees, of Washington Territory, the Senate amendments were concurred in to the bill annexing a portion of Idaho to Washington Territory.

The House agreed to the conference report on the joint resolution (H. R. 10,000) for an investigation of the accounts of the Pacific railroads.

Mr. Belmont, of New York, presented a conference report on the Diplomatic and Consular Appropriation bill, which was agreed to.

At the evening session Mr. Hatch, of Missouri, presented the conference report on the Agricultural Appropriation bill. There were two important amendments placed upon the bill as reported by the Conference Committee, one appropriating \$50,000 for the Bureau of Animal Industry. There was much opposition to both of these amendments, but the conference report was agreed to: Yeas 147, nays 78. A vote was then taken on the committee's amendment and it was decided in the affirmative: Yeas 42, nays 18.

On motion of Maloney the Senate bill for the erection of a national memorial bridge over the Potomac from Washington to Wilmington was taken up and passed. It appropriates \$500,000 for the construction of a bridge, which is to be erected in honor of Lincoln and Grant. The vote was: Yeas 30, nays 18.

THE LAND OF THE ALLIGATOR.

SENDS A DEMOCRATIC U. S. SENATOR TO WASHINGTON.

JACKSONVILLE, Fla., March 2.—General J. J. Finley, of Ocala, has been appointed by Governor Perry, United States Senator to succeed Hon. Charles W. Jones, whose term expires March 4th. General Finley is a lawyer, who served with distinction in the Confederate army and has been a member of the Supreme Court of Florida. He was three times a candidate for Congress, elected once, and defeated twice by Colonel Blalock, Republican.

CORNER RULE.

A Margin Price Fixed on Chicago Pork.

CHICAGO, March 2.—A deal in May pork on the Board of Trade resulted to-day in an appeal to "corner rule." This is a demand that the Directors of the Board meet and fix a margin price for the articles in question. To-night the Directors decided that prices should be named. This was immediately done, and the price declared to be \$15. To-morrow bears and shorts can call brokers and commission houses which are long down to that figure, as trades have been made as high as \$19 25 per barrel. The effect would be to immediately increase the price of the article, which is not the deal is apparently in the hands of a strong man. Only a couple of these appeals have ever been made, and they were without effect at the corner.

ONE WILL RESIGN.

DAILY HERALD.

THE COURTS.

Superior Court—Department One.
Hearings.
Wednesday, March 2, 1887.
People vs. Levering—On trial.

SET FOR THURSDAY.
Estate of Weingarth m—10 A. M.
Estate of R. C. Olson, G. H. Jerome,
Estate of J. W. Metz, Dolores Rodriguez
—2 P. M.

Department Two—Branson, J.
Switzer vs. Forestall et al—Set on law
calendar for March 7th.
Los Angeles Gas Co. vs. Vaila et al—
Jury trial March 9th at 10 A. M.
Dawson vs. Gardiner—Jury trial
March 10th at 10 A. M.
Guyer vs. Boqui—Passed for the ses-
sion.

Kimball vs. Avise—Dismissed.
In re application of McNulty, a native
of England—Admitted to citizenship.

SET FOR THURSDAY.
Brussini vs. Rebut—Jury trial.

Justices' Courts.

tinued until Friday. Bond of \$250 filed.

TOWNSHIP COURT—TANEY, J. P.
People vs. Macey—Battery; trial
March 11th, 10 A. M.

People vs. D. Walsh—Battery; dis-
missed for want of prosecution.
People vs. J. Banks—Burglary; held
to answer and committed in default of
\$500.

GOOD WORDS.

What a Entertainer Has to Say
of Los Angeles.

The Holyoke, Mass., Transcript has a
correspondent who writes in the fol-
lowing pleasant vein about Southern
California:

An era of speculation has surely be-
gun. From Ontario, Pasadena and
Los Angeles and, in fact, in all Southern
California real estate is booming. Land
is changing hands at increased prices
every time. The whole country has
been dormant for years. Since 1873,
until recently, there has been little or
no speculation. Those who burned their
fingers in 1865 to '73 are not as impetu-
ous now as then and there has come
upon the business-stage a large number
of young men who have had none of the
sad experience of many of their elders
and they are anxious for a boom in
business. While riding to "Lucky"
Baldwin's ranch two Easterners found,
at a distance of five miles from a town,
a real estate office in which sat a
complaisant agent who gave them the
information that the tract about the
corner of the city, 50 feet by 250
feet, at \$500 each. It seems incredible.
But it is a fair sample of "the fever."
At Los Angeles the real-estate firm of
Ruddy, Burns & Smith is doing a thriving
business. The ex Mayor is in fine
health and is much pleased with "the
glorious climate of California." Mr.
John Burns, who went from Holyoke
eight or nine years ago, was advised by
his physicians to take papers with him
so that if anything happened to him
during his trip that they might know
where to send his body. To-day he is
as near perfect health as a man can be,
and he attributes it to "the glorious
climate of California." The firm has
made some good strikes in real estate,
but most of its business is done on com-
mission. Los Angeles (pronounced Los
Anjles) has a large number of enter-
prising business cities. Its growth
has been phenomenal. In 1880 it
contained 10,000 inhabitants. Now it
claims to have 50,000. Its streets, street-
cars, public buildings, business
buildings, all in fine condition and a solid
basis for the building of a great city. In
the suburbs are beautiful residences with
elaborately laid-out grounds. One of
these recently changed hands at \$85,000.
A ride through its grounds shows plant-
ings, bordered with giant palms,
beautifully trimmed hedges of cypress
plants, graceful fountains of blooming
vines, showy specimens of poinsettias,
charming pieces of rock-work and ribbon
flower-beds, great century-plants, fine
specimens of the banana-tree, passion-
flowers, heliotropes, geraniums, callas,
trumpet-vines, English ivies, rees,
yuccas, etc., etc., in profusion. No
wonder that feminine tongues are ex-
hausted all common epithets of praise and re-
sorted to "Glorious to Gideon" and "Heavens
to Betsy" in their ejaculations of admira-
tion.

Los Angeles is a smart city. In front
of one of its beautiful residences a party
of down-easters stopped and applauded.
The climate is such that Jack Frost
never destroys ornamental flowers and
shrubs. Orange groves are numerous
all over the city. The streets are bor-
dered with eucalyptus and pepper trees.
Irrigating ditches and ditches run every-
where, the roads are well kept, and
cable-cars, electrical railway and horse-
car lines go to all parts of the city. Los
Anjles has a future, and fortunate are
they who went into business there be-
fore the present real estate boom began.
The bright young man who goes to Cali-
fornia to begin life can find a city of
active Eastern people in Los Angeles.
Near the city were seen farmers engaged
in buying a crop of alfalfa, and Chinese
were working in fields of cabbage, let-
tuce and other truck.

Runaways.
Runaway teams seem to be of very
frequent occurrence of late, and some-
thing should be done to prevent them,
for they are dangerous to the pedestri-
ans and to other teams in the street.
There were two yesterday which at-
tracted attention. The first occurred
about 11:30 o'clock. A horse attached
to a buggy started from East Los An-
geles, ran across the bridge and past the
depot up Main street to First, to
Spring and out toward the city limits.
A number of efforts were made to stop
him, but without avail, as the bridge was
not seen on his head. It was singular
that there was no collision or accident.

For Foreclosure.
Louis Mesmer has filed suit for fore-
closure of mortgage on the property of
Pico Pico, lying in the rear of the Pico
House. Plaintiff alleges that in 1885
he loaned defendant \$4000 and took a
mortgage on the above property and
the same remains unpaid. E. C. Con-
siders, W. J. Brodick and Rosanna
Garibaldi, who claim an interest in the
property, are included in the complaint.

MEDICAL.

CATARRH,

Consumption, Asthma

Daily and Weekly

HERALD,

BRONCHITIS

TREATED SPECIALLY AND SUCCESSFULLY BY

W. N. DAVIS, M. D.,

404 N. SPRING ST., LOS ANGELES, CAL.

Nasal Catarrh

Treated upon a new principle, founded upon

the fact that the disease is parasitic in its

origin. The parasite can be demonstrated

by the microscope and will present the ap-
pearance shown below.

One difficulty in the treatment of this dis-

ease has been the inability to apply the

remedies to the whole seat of inflammation,
another is the failure to use the right reme-

dies. Our treatment consists in using medicines

in the form of atomized sprays, warmed
and sprayed through the head and throat,
reaching every part of the head that spraycan reach. The remedy remains in the
head for some time, passes readily into
vapor and reaches cells filled with mucus
impossible to be reached by medicine in
liquid or powdered form.

The treatment is pleasant and even child-

ren will take it readily after the first time,
knowing the relief it will give them at once.
Constitutional remedies are employed for
the blood, etc. Patients can take them
selves at home when necessary.

The treatment is pleasant and even child-

ren will take it readily after the first time,

Y.; Mrs J M Miller and daughter, Calico; A B Coleman, Indianapolis; F E Davis, Santa Paula, W E Martin, Los Angeles; G H Schrempf and wife, Miss Rodgers, Peoria, Ill.; J Murphy, Baton, N. M.; S K Lee, Wis; J Campbell, W W Douglas, San Bernardino; J W Green, Stockton; O T Hinde, San Diego; W B Smith, Omaha; G Campbell, Pasadena; S Chapman and son, New York; W H Thompson, Topeka.

USEFUL AND HARMFUL MEDICINES.

There is a certain class of remedies for constipation absolutely useless. These are boluses and pills, made in great part of non-toxic, inert, and harmless ingredients, and other worthless ingredients. The damage they do to the stomach is not to be despised. Their effect is to weaken the bowels, and the stomach. Better far to use the agreeable and salutary agent, Hostetter's Stomach Bitters, the laxative effect of which is never preceded by pain, or accompanied by convulsive, violent action of the bowels. On the contrary, it invigorates those organs, the stomach and the entire system, means of curing and preventing malarial fevers, no medicine can compare with it, and it remedies nervous prostration, indigestion, kidney and bladder inactivity, and other inorganic ailments.

Dr. Gunn's Improved Liver Pills Removes Constipation, prevents Malaria, cures Dyspepsia, and gives new life to the system. Only one for a dose. Free samples at C. F. Heinemann's.

WHY WILL YOU Cough when Shiloh's Cure will give immediate relief. Price 10 cts., 50 cts., and \$1. C. F. Heinemann, agent, Los Angeles.

C. H. Hance, Our enterprising druggist, guarantees positive relief for any Cough, Cold, Croup, Asthma, Whooping Cough, and all Bronchial affections, by the use of that pleasant and never-failing remedy, Santa Abie, the California King of Consumption cures. Try it.

Now Has Faith. I had been troubled all winter with cold and pain in the chest and got no relief from remedies recommended by druggists and physicians. At last I was advised by Dr. Rosanko's cough and lung syrup. I had little faith, but thought to try it. Last night, not only did I breathe more freely, but I felt the effects of its curative qualities. From the News, Elizabeth, Ky., sample bottle 6 cents at C. F. Heinemann's.

The Electric Railway Home-stand Association. Heretofore the distribution of the lots in the South side tract will take place in room 8, Schumacher Block, March 8, 1887, at 1 o'clock P. M.

Dac De Montebello Champagne In every first-class house. Imported brands.

Hiding a Sallow Skin. Her complexion formerly was yellow, now her brilliantly tinted skin she shells herself are admiration of her friends. She used Freeman's medicated face powder.

WE WARRANT Gilmore's Asthma Cure to relieve the Asthma in one minute. C. F. Heinemann, agent, Los Angeles.

All respectable dealers keep Damiana Bitters. Michel Levy & Co., wholesale liquor dealers, agents.

REV. H. B. EVELL, of Pavilion, N. Y., says of Gilmore's Aromatic Wine: "I have tried to be the most desirable remedy to be placed in every family." C. F. HEINEMANN, Agent, Los Angeles.

RAMONA! The St. Elmo Hotel,

LOS ANGELES, CALIFORNIA.

THE GREATEST ATTRACTION YET OFFERED

In the way of a Desirable Real Estate investment and for

BEAUTIFUL VILLA HOMES

AS WELL AS FOR BUSINESS, IS

The New Town of "Ramona."

M. R. J. DEBARTH SHORR, PRESIDENT OF THE SAN GABRIEL VALLEY COMPANY,

has subdivided and put upon the market five hundred acres of choice land as

there is in Southern California, situated on Southern Pacific Railroad, south of and

adjoining Shorb's Station, only six miles from the city of Los Angeles and being the first

station east. Six Express Trains Daily. Location for Healthfulness, Climate, Productive-

ness of Soil and Beautiful Scenery is unsurpassed. It is well sheltered by the beautiful

foothills surrounding it; is in full view of and only four miles from "THE RAMONA,"

the finest hotel in Southern California, and three miles from South Pasadena. The

character of

THE SOIL IS ALLUVIAL, VERY RICH, AND EASILY CULTIVATED.

The rainfall is greater than in many portions of the valley, and the soil retains the

moisture, and the growth of vegetation, trees and vines is wonderful. It is adapted to

ORANGES and LEMONS, being well sheltered and free from fog and frost. Vineyards

do exceedingly well, as has been demonstrated, and also all kinds of deciduous fruits.

It adjoins the Alhambra tract, which is highly improved, as also the San Gabriel Wine

Company's large vineyard; is very accessible to the city, and with greater railroad facilities

now under contemplation, cheap and rapid transit, one can attend to business in the

city and at the same time have a DELIGHTFUL HOME.

The Water is Supplied from a Private and Undisputed Source,

and is of the purest quality. It will be piped through the principal streets of the town,

so each and every one can have an abundant supply at all times. It is the determina-

tion of the President of the company to place this property on the market at very

attractive prices and on reasonable terms of payment, much less, considered its many

advantages and surroundings, than any like property in the valley. The tract is subdivi-

ded into lots and blocks of all sizes, so any one can be suited, and those who desire to

avail themselves of an opportunity for an investment this is a splendid chance, and those

who select early will have a decided advantage as to location and prices.

For maps and full particulars, call on or address

L. W. DENNIS, Agent,

BAKER BLOCK (first door), LOS ANGELES.

Or J. M. TIERNAN, Shorb's Station

THE MOST CENTRALLY LOCATED HOTEL IN THE CITY.

STRICTLY FIRST-CLASS.

Charges Reasonable.

READ THESE FACTS:

We warrant the St. Elmo Tables to be the finest in the city.

The City Postoffice is in the same building and the buildings opposite.

Five lines of Horse and Cable Cars pass the door.

All R. R. Ticket Offices are in the same building and the buildings opposite.

It is the only thoroughly fire-proof hotel with brick partitions in the city.

It is the Tourist's Resort and Commercial Travelers' Home.

It has the largest number of graded rooms of any hotel.

The interior is new, clean, and comfortable.

TARRH!

Diseases Bronchiti

[illegible][illegible][illegible]

or, rather, become so productive of it, gives rise to serious disturbance and restriction of the subject to frequent and repeated attack, aggravating the disease by a new impetus, and a new effort on the part of the system to get rid of or surface than its predecessor. Under the difficulty spreads from the trachea, in a new form, to the bronchi, and then to the bronchial tubes, until, in a further and further, it reaches the terminal bronch, when a new impulse is required to set it on. Catarrh may, and often does, originate in the body, especially in the mucous membrane, such as the chest, bowels, kidneys, etc. Employment of proper inhalations, or of medicated steam, if the lungs are able to produce immediate action upon the diseased surface, and the mucus and phlegm are coughed up, and the air is carried up into the most remote and vital parts, where it is utterly impossible for the fluids to reach by these cases can be cured.

OSZENA.

It is a disease of the form of catarrh, or inflammation has taken through the mucous membrane of the nostrils, and it is most frequently of a scrofulous nature, but it may also be naturally scrofulous. The discharge passes through the nostrils into the throat, and is of a greenish yellow color, resulting from blood and almost entirely dissolved by the action of the f. Dr. Wood, of Philadelphia, is one of the most illustrious authorities which bear testimony to it. In bad cases the blood of the mucus so revolting as to isolate the patient and destroy his ability to live up to himself." In some cases the bones become separated and the subject is unable to get up, and the discharging is a bloody matter, and are expected to heal. After years has some time the patient finally comes impaired and often lost.

to the head and over the frontal parting of the hair, and is frequently spring from its extension N. The greatest danger, however, must be seen to prevent it from downward and affect the lungs. Cases of lung disease, in some degree, and in many instances a large share of the pamperment.

These grave consequences, all of which are liable to befall the zona, there are others which, if you, are sufficiently unpleasant, and of great unimportance, and by isolating them and preventing them from the nose, and from the nose, and from the nose, as great a calamity as can befall a people, and you can think of marrying while afflicted.

To visit Northern California, after known remedy, and falling in with the health of the whole, and do well to try this wonderful cure is revolutionizing the whole of the race, and the whole of the persons given up to die.

lects behind and above the soft passage between the throat and the lungs, and thus, by its judgment, enters the lungs and creates a series of irritations. In the affected individual, the cough arises from an insatiable desire to relieve the disordered mucus into the lungs to eject it. This is especially known as "hawking," a habit of coughing, and proves as injurious to the system as it is to those around him.

The offensive matter becomes and itself on the surface of the lungs, hard concretions, which are by way of the nostrils or throat, and thus, the patient, without these incrustations, as shown in various cases, or through a violent exposure to cold, or through a serious discomfiture, or through incrustations adherent to the trachea, may be thrown into a violent cough, which is usually relieved by expectoration. When there are traces of blood, but in some cases, presents a tubular appearance, or of excreta, or of blood, this condition is indicative of ulcers. In time, may destroy the structure of the lungs, and produce a flatulency of that organ.

Occasionally met with in which the blood, slightly thickened, fills the nasal cavities and then falling rise to a stench which is very offensive, and is due to the atmosphere of a whole room; and others in which all the secretions in the mouth, and the incessant feeling of dryness, heat, and heaviness in the head and nose—a popularly known as "Dry Cough,"

Now, specially extends to the throat, the lungs, and the chest, and is due to a distressing sensation of weight or compression over the chest, and is due to the
